Gun Safe Catalog 2016

We Stand Behind Our Craftsmanship with a “No Cost” Lifetime Warranty Against Theft & Fire

American Security Products manufactures safes with the best fire and burglary protection in the industry. We’re so confident in our products that we offer a lifetime warranty on all our gun safes. Our warranty covers:

- **Burglaries** – If your safe is forcibly entered, we will repair or replace it free of charge.
- **Attempted Burglaries** – If your safe undergoes a drill, punch or pry attack and is not breached, we will repair or replace it free of charge.
- **Damage from a Home Fire** – If your safe is damaged in a home fire, we will repair or replace it free of charge.

At no cost to you, we will either repair your damaged gun safe or replace it with a current production model of comparable value.¹

Standardized Testing from Independent Laboratories

AMSEC is one of the first manufacturers in the gun safe industry to use standardized test procedures from independent laboratories to substantiate our burglary and fire ratings. Standardized independent testing provides consistent test procedures that can be used across the industry so consumers can meaningfully compare ratings between different safes when making a purchasing decision.

Burglary Ratings

In the United States, the most recognized testing organization for burglary resistance of safes is Underwriters Laboratories (UL). UL publishes standards and administers tests to check if products meet those standards. Standards include specific tools that are used during a break-in attempt and a specific time limit for the test. There are several different burglary classifications that recognize specific levels of attack resistance. The most common listing in the gun safe industry is Residential Security Container (RSC).

Fire Ratings

The ETL logo on our fire-rating labels indicates that our ratings have been verified by independent testing at Intertek Laboratories. Intertek is a multinational independent inspection, product testing and certification organization with over 38,000 employees in over 100 countries. To test our products, Intertek places our safes in a furnace with 8 gas burners. The test furnaces reach 1200°F in 8 minutes. That temperature is maintained for the duration of the test. Five separate thermocouples monitor the temperature inside the safe. To pass Intertek’s test, the internal temperature inside a safe must remain below 350°F. Paper burns at approximately 450°F.

Series	Fire Label	Outside Temp	Time Period	Inside Temp Less Than
RF Series	120	1850°F	120 min.	350°F
BF® Series	ETL 120	1200°F	120 min.	350°F
NF Series	ETL 90	1200°F	90 min.	350°F
FV Series	ETL 45	1200°F	45 min.	350°F
TF Series	30	1200°F	30 min.	350°F

¹To file a claim, you must be the original owner of the AMSEC Gun Safe. Within 30 days of the burglary/fire incident, you must properly file a police report documenting the incident. A copy of the police report must be submitted to AMSEC with your warranty claim.

RF Series - High Security Gun Safes

AMSEC offers the only gun safes that have a TL-30 UL Burglary Rating. To earn a TL-30 UL Burglary Rating, these safes are subjected to a brutal 30-minute attack by trained technicians using tools such as sledge hammers, picks, chisels, circular saws, carbide drills, wedges, and pry bars. These safes are the industry standard for protecting assets against the threat of serious attack.

The high level of security of these safe comes from AMSEC's unique composite construction. High-strength concrete with proprietary aggregate combined with a matrix of formed steel barriers stop types of attacks outlined in the Underwriters Laboratories standard. With a door thickness of 6 inches and a body thickness of 3 inches, these massive safes weigh between 3,400 and 4,500 pounds. No one is walking out of your house with one of these.

This is the same safe construction that AMSEC sells to banks and jewelers across the county. Today there are hundreds of millions of dollars' worth of assets protected by AMSEC TL-30 safes.

BF® Series – Burglary / Fire

The Most Unique Gun Safe In the Industry

The American Security Products BF Gun Safe is the best gun safe available today. For burglary protection, it has a massive ½”-thick steel plate in the door. For fire protection, it is filled with our revolutionary DryLight.

For many years, smaller fire safes have been constructed with a poured fill material. But larger gun safes pose several manufacturing challenges when it comes time to fill them with insulating materials. Because of this, the industry adopted the use of drywall as the primary material for fire protection. The problem with using drywall is that no matter how much care is taken in assembling the many pieces of drywall into the safe body, gaps and joints still remain in the construction that can allow heat to penetrate the safe body. AMSEC was able to overcome this technical challenge by developing manufacturing processes that allow us to produce a safe body filled with seamless DryLight. Independent testing at Intertek Laboratories has confirmed that these safes outperform gun safe bodies constructed with drywall.

All BF® Series Safes Feature DryLight Insulation

American Security Product's DryLight is an advanced poured concrete insulation material that eliminates the use of gypsum board and provides a dry and seamless barrier to protect valuables against intense fires and burglary attacks.

SECURITY

- ½”-Thick Steel Plate Door (BF7250 & BF6024 have ¾” steel plate)
- Four-Way Bolt Work
- 2”-Thick Body
- UL Residential Security Container Burglary Classification
- 11 massive ½” Chrome Plated Bolts
- 4 Pre-Cut Anchor Holes

FIRE PROTECTION

- Seamless DryLight Fill
- 120-Minute Intertek Verified Fire Rating
- Dual Door Seals to Protect Against Fire and Smoke

FUNCTIONALITY

- Industry's Most Flexible Interior
- Door Organizer
- Storage for Two Long Guns or Assault Rifles on Door
- Mirrored Back for Added Interior Visibility
- AC Power Outlet

Turn Your Entire Room Into a Security Center

AMSEC Vault Doors offer the same protection as our innovative BF and NF Gun Safes. They are designed to fit standard 80" x 30" and 80" x 36" door openings. With our inward-swinging vault door option, your vault room can also serve as a storm shelter. The vault door's inward swing ensures that you will be able to open the door even if debris has fallen on the other side. All AMSEC vault doors can be opened from the inside, ensuring personal safety.

Standard Features

- 2" Thick Door
- 10 1/2" Chrome Plated Bolts
- Adjustable Frame to Fit Walls Ranging From 4 3/4" to 9 3/4" Thick
- Safety Lock Release

Defense Vault

Puts Home Security Where You Need It

AMSEC's DV652 was produced from our culture of listening to customers. Customers wanted a secure place to store their home defense weapons. They wanted something that could be kept in their bedrooms, close to their bed. After days of brainstorming, the DV652 was born. Sleek enough to fit under most beds, the DV652 can be secured to either the floor or the bed and is equipped with our backlit ESL5 lock, which offers a stealth-mode option and was specifically designed for this product.

Features

ESF1214	11¼ x 14½ x 12 ¹⁵ / ₁₆	1,692	54 lbs.

These elegant, well-appointed 2-drawer and 4-drawer interior chests are the most sophisticated way to store and display your jewelry collection and letter files. These stunning chests are finely crafted with solid-wood maple drawer fronts and maple veneer and finished in a rich honey maple stain. Recessed door pulls give these cabinets a more streamlined appearance and makes for an easier fit into a variety of AMSEC safes. All drawers are elegantly lined in a silky, dark red felt and include a variety of Stor-It Jewelry Organizer Inserts.

Two-Drawer Cabinet

Top drawer includes a Three Compartment Ring Organizer and a Seven Compartment Jewelry Organizer. Bottom drawer can be used for bulky items or as a file drawer.

Four-Drawer Cabinet

Top drawer includes a Three Compartment Ring Organizer and a Seven Compartment Jewelry Organizer. Drawer Two Includes a Three Compartment Necklace Organizer. Drawer Three Includes a Four Compartment Watch Organizer. Drawer Four is left open for easy access of large, bulky items.

Storage Cabinet Specifications

Model	Outside Dimensions (HxWxD)	Weight
2-Drawer	16 ¾ x 16 x 14 ½	28
4-Drawer	16 ¾ x 16 x 14 ½	29

Storit-Cabinets are available as an option on the following Gun Safe models:

RF6528, RF703620X6, RF582820X6, BF7250*, BF7240, BF6636, BF6030, NF6036, NF6030

Cabinets do not fit any 6032, 6024 or 5924 models, the FV Series or the TF Series.

* no kit needed for installation on BF7250 - Cabinets slide right in.

The Safe Cloak!

Hide Your Gun Safe In Plain Sight!

Instantly disguise your gun safe with Amsec's Safe Cloak. Available in five different sizes, the Safe Cloak fits over your gun safe to instantly disguise it as a wood cabinet. Strong magnets and a sewn-in PVC board at the top easily and securely hold the cloak in place. The thermal-transfer, four-color wood-cabinet print is so good, it will fool not only passersby, but guests as well.

Available in the following sizes: 6024, 6030, 6636, 7240, 7250.

Premium Door Organizer Retrofit Kits

The AMSEC Premium Door Organizer (PDO) maximizes storage space, offers quick access to commonly used items, and is easily installed on any gun safe.

All PDO's include:

- Various see-through pouches and zippered pockets to store valuables.
- Two rows of holders for storage of choke tubes, small flashlights and ammo.
- Two full-width pistol storage systems to accommodate multiple handguns. (Comes with four holsters. Additional holsters can be purchased separately.)
- A long gun storage system that accommodates two guns. Includes the AMSEC exclusive "no hassle" quick release band.
- PDO Model 28 offers a zippered pocket large enough to store letter size folders.

Available in three different sizes based on gun safe door size.

PDO Model 19

Electronic Lock Options

For quick and easy entry, an electronic lock is the lock of choice. These locks are powered by batteries located in the dial and allow you to change your combination anytime.

AMSEC ESL10XL
Available in Brass, Chrome and Black Nickel Finish

AMSEC ESL5
Available in Chrome and Black

Lock Duo
Available as an upgrade or retrofit kit on selected AMSEC safes.

S&G Model 6120
Available in Brass or Chrome Finish

S&G Titan
"EZ" Keypad, Brass, Chrome or Black Nickel Finish

LAGARD
LG Basic
Brass or Chrome Finish

Other Options

.50 Caliber Handle
Available in Black Nickel
BF® & NF Gun Safes only.

Clip-On Battery Operated Light Kit

This compact light fits any safe. Gives off a super-bright light, letting you see the contents of your safe easily. Battery operated.

Jewelry Drawer

Velvet lined jewelry drawer that can be installed on top or underneath any shelf larger than 10" wide and 13¹³/₁₆ deep.

Desiccant

Prevents rust and moisture damage. Recommended for safes without electrical access.

LED Light Kit

The HIWL120 has two 39" light strips with 120 high-intensity white LED lights and a motion sensor that automatically turns the lights on when motion is detected. The lights turn off 30 seconds after motion has stopped. This light kit can be installed on any AMSEC safe and is also available as a retrofit kit.

Motion Sensor

Pistol Rack

This four-gun rack is ideal for organizing pistols inside your safe.

AR Gun Racks

These gun racks are fully adjustable and custom fit the side shelf area of our BF® series gun safes. Each rack is designed with enough clearance to accommodate extra large front sights or optics. All racks feature rich pin-dot fabric.

Premium Upgrade Package for RF, BF® and NF Safes

When you choose to upgrade your American Security RF, BF® or NF Series with a Premium Package, we'll add on some of our most popular options, including the GunSaver Dehumidifier, a Jewelry Drawer, an LED light kit, and a 3-outlet power strip with USB.

GunSaver Dehumidifier

Keeps your guns safe from the threat of rust, pitting and moisture damage. Electrical access required.

The Industry Leader for Over 65 Years

Since 1948 American Security Products has protected the assets of our clients throughout the world by providing a broad array of safes and consulting services with the highest degree of quality, integrity and responsiveness. Customers have trusted AMSEC safes for generations. The design of each AMSEC safe draws on over 65 years of experience on protecting the physical assets of our customers. There aren't many criminals with over 65 years of experience, so we think that gives us the advantage.

Before the American Security name is attached, each safe must undergo a rigid 28-point inspection. In addition, every AMSEC safe undergoes the industry's most comprehensive testing program. AMSEC uses independent agencies such as Underwriters Laboratories to put our designs to the test. We maintain the tightest tolerances and highest standards of fit and finish in the industry.

Our commitment doesn't end there. We have built our company on the commitment to offer the best service in the industry which will insure that AMSEC remains the industry leader.

Our corporate center is staffed with highly trained Customer Service Representatives and our Service Department is supported by 7,500 factory-trained technicians throughout the world. Technicians are available 24 hours a day, 365 days a year to answer questions and help solve problems with any safe shipped anywhere in the world. We have been providing safes and security solutions to the banking industry since 1948. This type of high security technology is built right into our gun safes.

We produce over 60,000 safes each year and we take protecting our customers' assets very seriously. That's how we got to be the largest security safe manufacturer in the world, and that's why you can't buy a better gun safe than an American Security safe.

Simply put, our reputation is built on product design, innovative technology and the best support in the industry.

It has worked for us for over 65 years and it ensures our complete customer satisfaction. The choice is easy:
