CashWizard is a flexible and powerful cash management system.

CASH MANAGEMENT

- Enhances accountability: each user makes deposits via their own account
- Improves efficiency: less time managing cash, more time managing the business
- Reduces risk: bill validator checks for note authenticity
- Increases accuracy, reduces theft
- Supports daily credit files sent to armored courier and financial institutions
- Provides a higher degree of insight than previously possible in cash management

SECURITY

- Communicates through an encrypted network
- Supports dual control and armored car pickups
- Allows configurable time delay as a deterrent to robberies
- Permits time lock restricted access to defined operating hours
- Maintains a 120,000-record audit trail
- Preserves up to 500 users, each of whom can have unique privileges
- Uses PIN code and/or AMSEC e-Key for user authentication
- Detects if a door has been left open or has been tampered with
- Utilizes backup database secured inside of safe

FLEXIBILITY

- Safes are tailored to the individual needs of the customer
- Hardware options include bunch note feeders, additional lockers and various bases
- Network access via Ethernet, cellular or Wi-Fi connection
- Doors are individually configured for all access control parameters and user access

REMOTE MANAGEMENT

- Manage system configuration and users through the cloud
- Upgrade firmware and bill reader remotely
- Receive proactive alerts: Safe full, missed courier pick-up, deposit made
- Manage safes individually, as a group or for the whole enterprise
- Schedule reports to be auto emailed
